Employment history

Sales manager

2008 - till now **Kyivstar**

Sale of telecommunication services. Working with large business customers.

As a hobby I have implemented the project "Electronic scoreboard" for the competition. Used C#.

I took part in a client-server system development project. Using best practices of OOP/OOD I prepared SRS and set of UML diagrams. They have been used for subsequent software development.

FoxPro Developer

1995-2000 **Ukrainian forest research institute**

Development existing system. Development of HR-system.

Developer

1992-1995 I worked for several companies during my studies in NURE. Positions: system administrator, database administrator, developer. Implemented project for a medical company.
